

2021 HERMISTON RACEWAY

BOMBER DIVISION RULES

RULES INTERPRETATION:

IF IT DOESN'T SAY YOU CAN, YOU CAN'T

Any car or equipment that the officials, board members, and directors considered exotic or not in the best interest of the track will be considered illegal for competition. In the interest of fairness, the rules may be adjusted to create a balance of competition.

If needed, for competition purposes the track can decide to add weight to any car prior to entering a competition.

SAFETY - It is recommended that each car have, within driver's reach, built-in fire extinguishing equipment containing Halon 1211 or equivalent. Dry powder is not permitted. Any car that is not equipped with a built-in fire extinguisher must have an adequate fire extinguisher securely mounted within reach of the driver. The fire extinguisher may be secured to the roll bars or mounted on the left side door area. All teams should have in their garage or pit area as part of their equipment, a fully charged min 10-pound fire extinguisher.

a. **ELECTRICAL CUT-OFF SWITCH:** All cars must be equipped with a master cut-off switch. The cut-off switch must completely disconnect electrical power and must be clearly marked with an "ON-OFF" decal.

b. SEAT BELTS AND SHOULDER HARNESS

A quick release lap belt of no less than 3" wide unless using head restraint 2" wide is required. Where the belt passes through the seat edges, it must have a grommet installed, be rolled and/or padded to prevent cutting.

Seat belts must be dated by the manufacturer and must not be used beyond five years after the manufacture date. Recommend replacement after two years.

It is recommended that HANS specific seat belts be used with HANS device. If not using HANS, a neck brace is highly recommended

c. WINDOW NET A nylon window screen is mandatory. It must be fastened to the roll cage top bar and highest driver's door bar on the cage. Window net must be rib type made from 1" wide nylon material with a maximum of 1 3/4" square between the ribs. All window net mounts must be welded to the roll cage and release from the top.

d. DRIVING SUITS must be worn at all times when the car is on the racing surface. Must be fire retardant and clean and without holes. **GLOVES HIGHLY RECOMMENDED**

- Drivers door must be welded or chained shut. Doors must contain a hinged metal door for shoulder protection.

- all glass must be removed with exception of windshield. Lexan can be used as replacement

- fire retardant shoes and gloves recommended

- helmet to be a minimum snell 2005 or sa-2005 minimum.

- racing seats are required **NO FIBERGLASS SEATS ALLOWED.**

- V6 cars 3200
- v8 cars 3400
- 55% left side weight
- cars under 105-inch wheelbase 53% left side weight
- weight to be mounted securely subject to approval.

- weights are with driver before race, will be checked post-race.
- added weight must be painted white and are identified with car #

The tech official has the final say in the interpretation of these rules. The tech officials reserve the right to change or adjust these rules for safety or competition at any time. Build your car for the rules not around them.

ADDITIONAL INFORMATION:

All participants are expected to take pride in being part of our entertainment. Racing entertainment is what we sell to the public and we will not tolerate anyone or anything that detracts from the show. Cars in the opinion of the Officials that lack in appearance or are deemed unsafe will not be allowed to race until acceptable. All car construction rules will be decided by Hermiston Raceway inspectors. Burden of proof on any concern will be the responsibility of the driver.

It is the responsibility of the driver to ensure their car conforms to all rules and regulations at any time while on the racing surface or anywhere on premises.
